2024 Submission Form

16. Total Square Footage (floor area of the project): 28,000

17. Photography. Color photos (20 maximum) are required for each nomination. Ideally, photos that show the job from start to finish and those that exemplify quality construction. Please submit jpeg photos with your nomination.

- I am including a total of 15 photos with my nomination.

18. Project Narrative. Please try and avoid listing your company name in your descriptions.

What is one unique quality about the project? This project was a higher end spec suite build out. The client wanted to create a higher end work space that would be leasable as is without many modifications. Specialty ceilings from Armstrong, USG, 9Wood and CertainTeed created a very clean and attractive space.

What is the one thing you are most proud of about the project? The way our team worked with the architect on installation of the speciality ceilings and wall panels. The wall panel locations/layout had to be modified in the field. Finished product was great. Architect, Owner and GC were very happy. Most of the spaces are already leased.

19. Materials Used

Material	Manufacturer	Supplier   Distributor
ACT Grid and Tile	Armstrong	FBM
Beams and Bars	USG	Western Interior
Heartfelt Liner Baffles	CertainTeed	Western Interior
Liner Wood Ceilings	9Wood	Western Interior
Stretch Wall Panels	FarbricMate	Western Interior
