

# AWCI Colorado Excellence in Construction Quality Award

2024 Submission Form

## Criteria

- The winning team consists of the AWCI member contractor(s), manufacturers, suppliers, and distributors who worked together on a wall and ceiling project.

## Eligibility

- Only AWCI Colorado members are eligible to enter
- Projects for 2024; The project must be finished between January 1st 2024, and at least 90 percent complete by December 31<sup>st</sup>, 2024
- The project's contractor(s), manufacturers, suppliers and distributors must be AWCI Colorado Members in good standing
- The project may be commercial or residential
- The size and location of the project does not limit eligibility
- A company may submit one project per Award Category (Please submit new form for each Category)

## Voting

- The awards will be voted on by AWCI Colorado Members
- Each member company will receive ONE (1) vote. We will utilize online voting allowing each member to vote for THREE (3) projects per category

## Project Entry Steps

- All application forms and pictures must be received by April 18, 2025
- Absolutely no extensions can be made to the indicated deadlines
- **PLEASE RETURN FORM AND PICTURES IN A WORD DOCUMENT**
- Email applications and pictures to Melanie Trujillo at [director@awci-colorado.org](mailto:director@awci-colorado.org)
- If you have any questions please call Melanie (303)249-4948

## Contractor Information

1. Name of contractor \_\_\_\_\_
2. Address \_\_\_\_\_
3. City / State / Zip \_\_\_\_\_
4. Phone \_\_\_\_\_

## Primary Contact

5. Contact name \_\_\_\_\_
6. Title \_\_\_\_\_
7. Phone \_\_\_\_\_
8. Email \_\_\_\_\_

## Project Information

9. Project Name \_\_\_\_\_ NWC Livestock Center
10. Project Location (city/state) \_\_\_\_\_ Denver Colorado
11. Client Name \_\_\_\_\_ Whiting-Turner
12. Architect Name \_\_\_\_\_ Populous

2024 Submission Form

## 13. Award Entry Category (Only one per form)

- Residential
  - Single Family
  - Multi-Family
- Commercial
  - \$0 to \$1,000,000
  - \$1,000,000 +
- **Suspended Acoustical Ceiling**
  - \$0 to \$250,000
  - \$250,000+**
- Exterior Finishes
  - All Sizes

14. Date Your work on the project started and finished (mm/yy): 4/24 to 5/25 (substantial completion at 11/24 for baffles).

15. Total Project Schedule (mm/yy): 01/23 to 10/ 25

# AWCI Colorado Excellence in Construction Quality Award

2024 Submission Form

16. Total Square Footage (floor area of the project): 47,451 SF (Ceiling Grid)

17. Photography. Color photos (20 maximum) are required for each nomination. Ideally, photos that show the job from start to finish and those that exemplify quality construction. Please submit jpeg photos with your nomination.

- I am including a total of 6 photos with my nomination.

18. Project Narrative. Please try and avoid listing your company name in your descriptions.

- This project involved the large-scale installation of 3,000 acoustic baffles in the NWC Livestock Show Arena, suspended from a USG ceiling grid system across an expansive 47,451 square feet. The baffles were made of PVC-wrapped insulation designed for sound absorption, which will contribute significantly to the arena’s acoustic control.

What is one unique quality about the project?

- To suspend the baffles, gripple cables and locking mechanisms were used, allowing for precise adjustment of elevation and ensuring uniformity across the massive layout. Due to the significant height of the arena, work was performed using 125-foot boom lifts, highlighting the project’s complexity and the scale of coordination required. This installation showcases both the technical challenge and the impressive logistics behind transforming a large, open arena into an acoustically efficient space.

What is the one thing you are most proud of about the project?

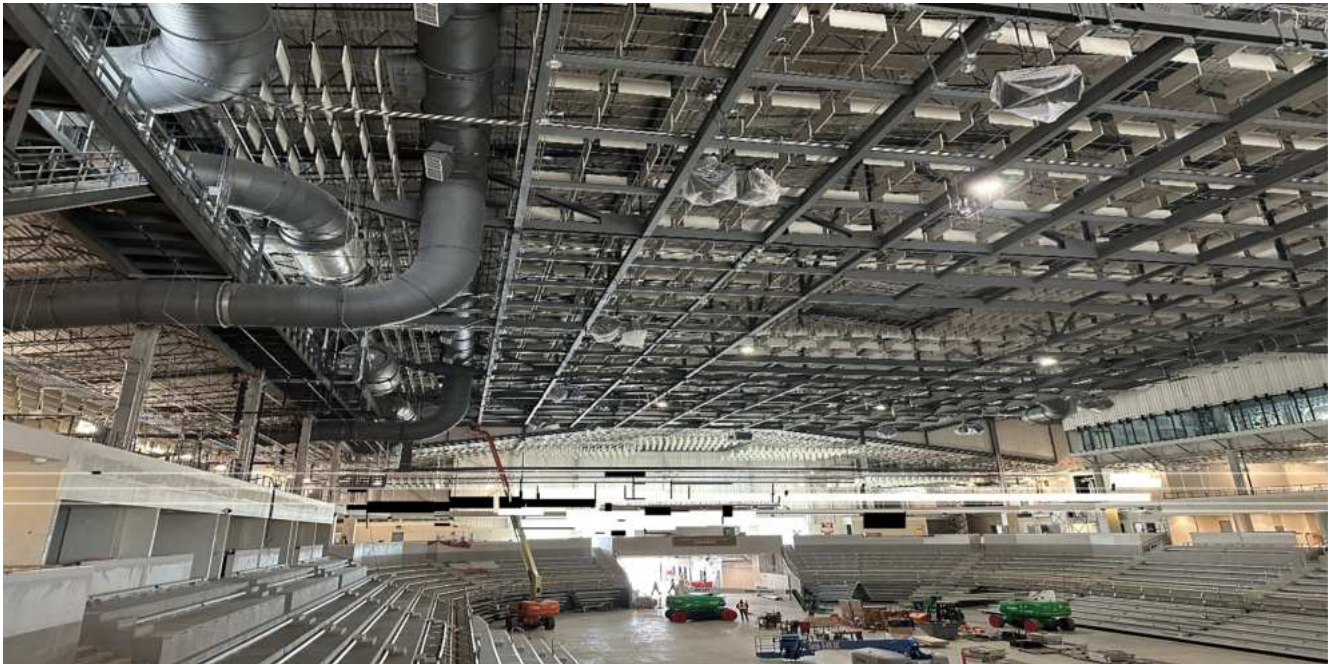

- Layout for the baffle installation was performed on the ground where our team mapped out control points for our grid. The coordination and logistics required to execute this plan from **125-foot boom lifts** made the installation both **challenging and highly rewarding**, showcasing teamwork, planning, and execution on a massive scale.

19. Materials Used

Material	Manufacturer	Supplier   Distributor
<u>4' Drywall Grid Tee</u>	<u>USG</u>	<u>Western Interior Supply</u>
<u>2' Drywall Grid Tee</u>	<u>USG</u>	<u>Western Interior Supply</u>
<u>6' Drywall Grid Tee</u>	<u>USG</u>	<u>Western Interior Supply</u>
<u>12' Drywall Grid Main</u>	<u>USG</u>	<u>Western Interior Supply</u>
<u>PVC Baffles</u>	<u>MBI</u>	<u>Western Interior Supply</u>
