- I am including a total of 6 photos with my nomination.

18. Project Narrative. Please try and avoid listing your company name in your descriptions.

What is one unique quality about the project?

One unique quality of this project is the custom-manufactured border panels, each uniquely cut to fit the existing soffit and site conditions. No two borders were the same, requiring precise measurements and fabrication to ensure seamless installation.

What is the one thing you are most proud of about the project?

One of the most impressive aspects of this project is the precision and craftsmanship involved in custom fitting each border panel. With every border uniquely fabricated to accommodate existing conditions, our team executed meticulous measurements and seamless integration, resulting in a flawless, high-quality finish. The harmonious blend of the Sound core wood textures ceiling and the millwork creates a visually stunning design that enhances the aesthetic appeal of the office.

19. Materials Used

Material	Manufacturer	Supplier Distributor
Sound core Wood Textures	CSI Creative	Pioneer Materials West
Metal Stud Framing	CEMCO	FBM Supply
Gypsum Board Products	Gypsum	FBM Supply
