 - \$250,000+
- Exterior Finishes
 - All Sizes

14. Date Your work on the project started and finished (mm/yy): 12/23 to 6/24_____

15. Total Project Schedule (mm/yy): 11/23 to 9/24

AWCI Colorado Excellence in Construction Quality Award

2024 Submission Form

16. Total Square Footage (floor area of the project): 33,000

17. Photography. Color photos (20 maximum) are required for each nomination. Ideally, photos that show the job from start to finish and those that exemplify quality construction. Please submit jpeg photos with your nomination.

- I am including a total of 20 photos with my nomination.

18. Project Narrative. Please try and avoid listing your company name in your descriptions.

What is one unique quality about the project? There were a lot of STC rated double framed, double, triple rocked walls in combination with quite a bit of drywall and AcoustiBuilt ceilings on this project. Meeting and Conference areas with the need for high STC ratings.

What is the one thing you are most proud of about the project? The way our team worked with the GC, Architect and other trades. Due to the larger width of the walls there were a lot of layout issues which were fixed in the field. Ceiling baffles were hung under drywall and AcoustiBuilt ceilings so we had to work closely with the other trades in coordination. Finished product looked great and gave the client the intent they desired.

19. Materials Used

Material	Manufacturer	Supplier Distributor
Steel	Cemco	Jones Hartz
Drywall	American	Jones Hartz
INS	JM	Jones Hartz
GridX	Armstrong	FBM
AcoustiBuilt	Armstrong	FBM
