

AWCI Colorado Excellence in Construction Quality Award

2024 Submission Form

Criteria

- The winning team consists of the AWCI member contractor(s), manufacturers, suppliers, and distributors who worked together on a wall and ceiling project.

Eligibility

- Only AWCI Colorado members are eligible to enter
- Projects for 2024; The project must be finished between January 1st 2024, and at least 90 percent complete by December 31st, 2024
- The project's contractor(s), manufacturers, suppliers and distributors must be AWCI Colorado Members in good standing
- The project may be commercial or residential
- The size and location of the project does not limit eligibility
- A company may submit one project per Award Category (Please submit new form for each Category)

Voting

- The awards will be voted on by AWCI Colorado Members
- Each member company will receive ONE (1) vote. We will utilize online voting allowing each member to vote for THREE (3) projects per category

Project Entry Steps

- All application forms and pictures must be received by April 18, 2025
- Absolutely no extensions can be made to the indicated deadlines
- **PLEASE RETURN FORM AND PICTURES IN A WORD DOCUMENT**
- Email applications and pictures to Melanie Trujillo at director@awci-colorado.org
- If you have any questions please call Melanie (303)249-4948

AWCI Colorado Excellence in Construction Quality Award

2024 Submission Form

16. Total Square Footage (floor area of the project): 358,000 SF _____

17. Photography. Color photos (20 maximum) are required for each nomination. Ideally, photos that show the job from start to finish and those that exemplify quality construction. Please submit jpeg photos with your nomination.

- I am including a total of 37 photos with my nomination.

18. Project Narrative. Please try and avoid listing your company name in your descriptions.

What is one unique quality about the project?

Livestock Center was a unique project in all aspects. The exterior contained many intricate details, with bypass framing, soffits, and unique conditions. The interior Arena has an overlook to watch the shows, a cloud ceiling suspended by aircraft cable and plates, extrutech panel ceilings in the wash bays, or a catwalk with hilti Unistrut in the kitchen. Overall it is unique due to the project size as well as how it will be utilized for the Stock Show and other events every year in Denver. The Expo Hall and Arena both offer wonderful aspects that Denver residents and people visiting will enjoy for years to come.

What is the one thing you are most proud of about the project?

The cloud ceiling above the arena is one thing we are most proud of. It was originally designed to be held by steel rods, but we were tasked with designing and detailing the aircraft cable, framing, and overall finish of the ceiling. This will be displayed above the arena seating and hold a ribbon board for scores and advertisements for everyone to see.

19. Materials Used

Material	Manufacturer	Supplier Distributor
Metal	ClarkDietrich + Cemco	FBM + Jones Heartz
Drywall	National + American	FBM + Jones Heartz
Extrutech	Extrutech	FBM
Drywall Grid	USG	Western
Aircraft Cable		Western
Unistrut	Hilti	Hilti
FRP		Western
